are here to help.

What is Medical Facilities Group?

Medical Facilities Group, a division of SupplySource (a certified Herman Miller dealer) has the stability and long-term industry presence to help you manage your image while you manage your facilities, fulfilling your project needs now and years from now with continuity. Our staff has over 30 years of design, project management, and installation experience.

We represent the leading manufacturers of furniture and healthcare equipment. The high-quality products we offer provide functional and comfortable environments that reflect our client's image and aspirations.

Whether it's a single chair or a long-term contract relationship, Medical Facilities Group values your business and strives to exceed your expectations.

What is Humanscale Healthcare?

Humanscale Healthcare designs and manufactures ergonomic equipment to boost the comfort and safety for employees in healthcare environments such as hospitals, surgical centers, physician practices, long-term healthcare facilities, and clinics. Focusing primarily on clinical environments, technology centers, and administrative offices, our products are designed to improve the comfort of all computer users.

How can we help your healthcare organization?

Medical Facilities Group and Humanscale Healthcare offer services and product solutions to meet the needs of any size project.

Our Services Include:

Design

Space planning, fabric and finish selection, installation drawings, 3-D rendering, and code compliance.

Project Management

Project planning, shipment scheduling, project coordination, move management, and contract administration.

Installation

Furniture installation, 24/7 availability, punch list completion, product use training, and room re-configuration.

Customer Support

Product quotation, maintenance, warranty work, inventory management, and standards programs.

The following high-performance ergonomic product solutions help boost workplace efficiency, reduce fatigue, and promote comfort.

Introducing four great products that no one should live without...

CPU 600

The CPU600 sets a new standard for CPU holders. It protects your valuable technology investment while making the CPU's cables, ports, and drives readily accessible. It offers the quickest and easiest installation on the market, which saves both time and money. And it easily adjusts to accommodate mini CPUs, full-size towers, and everything in between.

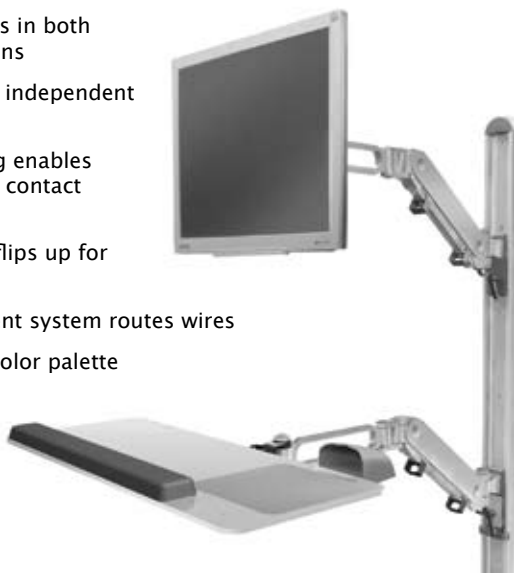

- Adjusts to fit CPUs 3" to 10" wide by 12" to 20" high
- Proprietary Quick Lock offers quick and easy installation
- Slides smoothly on nylon glides in 16" track
- Rotates a full 360° for complete access to cables and ports
- Adjustable mounting plate ensures that the CPU will be centered and balanced
- Made predominantly of aluminum, with steel and polypropylene
- Contains 90% recycled content and is 100% recyclable
- Lifetime warranty

V2

The V2 Wall Station supports ergonomic use of technology in tight spaces. Using as little as five inches of horizontal space when stored, the V2's one-touch independent adjustability of monitor and keyboard height and depth supports all users in both sitting and standing positions.

- Accommodates 99% of users in both seated and standing positions
- Monitor and keyboard offer independent one-touch adjustability
- Flexible monitor positioning enables caregiver to maintain visual contact with patient
- Keyboard/mouse platform flips up for efficient storage
- Integrated cable management system routes wires
- Contemporary design and color palette
- Accommodates CPUs 2.75" to 4.75" in width
- Lifetime warranty

switch mouse

The Switch Mouse is an innovative mousing solution that boosts comfort and reduces the risk of injury.

Based entirely on the latest human factors research, the Switch Mouse is specifically designed to minimize the health risks associated with long-term mousing, including tendonitis and carpal tunnel syndrome. Rich in ergonomic features, the innovative Switch Mouse ensures you'll mouse in comfort.

Recognized for the following awards:

mixology

V-Shaped Base

Accommodates a naturally angled forearm position to minimize injury risks

Extender

Patented length-adjustable feature fits any hand

Palm Rest

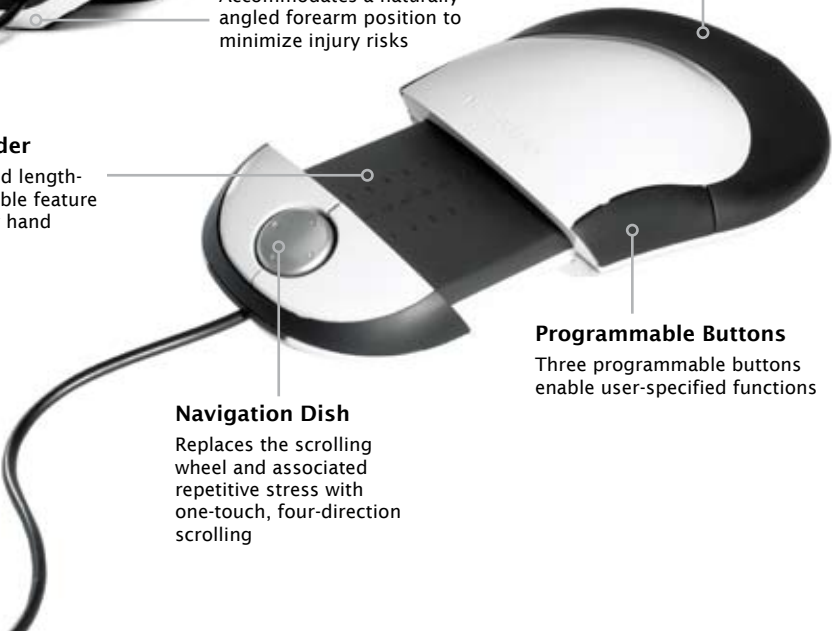

Unique design supports entire hand to keep wrist straight and eliminate contact stress

Navigation Dish

Replaces the scrolling wheel and associated repetitive stress with one-touch, four-direction scrolling

Programmable Buttons

Three programmable buttons enable user-specified functions

NeatLinks

Designed to house and route cables, power strips, and ballasts, NeatLinks offer protection for technology, order for users, and easy installation—in any direction, to almost any plane—with just two screws or double-sided tape.

- Sleek, unobtrusive design
- Accommodate power strips, multiple ballasts, and a wide array of cables
- Curved, finger-friendly angle at ends of each channel eases routing and ensures visual access
- Reduce clutter and associated hazards
- Facilitate cleaning under desks
